Bioethics Certificate Course

COURSE OVERVIEW

Clinicians, non clinicians, teachers in the medical and para medical field, nurses and researchers in medicine, philosophy and law are increasingly encountering ethical issues in their practice sphere. Decision making on complex ethical and moral dilemmas related to advances in medicine, law, science and technology can be challenging even for the experienced. Specialized and cross-disciplinary knowledge and dialogue is essential to enhance awareness and training in ethics to ensure preparedness of the various stakeholders to handle real-life situations. The Bioethics Certificate Course (BCC) prepares its students to address these challenges through an innovative learning experience featuring lectures, interactive online multimedia and collaborative course activities. The course is conducted by Centre for Bioethics, Manipal University, at Mangaluru Campus.
